About Andrew & Kim Baird and Amazing Business:

Andrew and Kim Baird are the Founders of Amazing Business, here's why the dynamic couple started the company in their own words:

and struggled until we found the strategies and tools to turn it into a six figure business working part time.

We know that there are other business owners just like us that want an Amazing Business, and it really makes us sick seeing so many business owners struggling and slogging away in their business unnecessarily.

Would you like a business that provides you with a better lifestyle – both in terms of the money you make and the time you get outside the business? That’s our goal for you and the reason we started Amazing Business.”
